International Church Convention 2014: final spurt of the online-survey

Zurich/Stuttgart. After about four weeks already over 4.000 church members have participated in the online-survey on the International Church Convention (ICC) of the New Apostolic Church. It was drawn to the survey, to which all church members are invited to participate, via the internet presence of some European District Churches as well as a poster notice.

Through the survey the church members can pass on their expectations, wishes and interests to the planning group of the Church Convention as well as submit programme contributions for the Church Convention. The Church Convention will take place in the Olympic Park in Munich from June 6th to June 8th, 2014.

The questionnaire which is available in three different languages (German, English, French) and can be filled out directly, is activated by the end of February 2013. If you want to participate in the survey, please click [here](#).
