The new newsletter of the
NAC USA is called "Vision"

New York. The new member newsletter of the New Apostolic Church USA is called "Vision". It has recently made its on-line début with news reports from the church office and the congregations throughout the country. In his preface to the newsletter, District Apostle Leonard Kolb writes: "Welcome to the first edition of the USA District News in its new format."

The preface goes on to say that the newsletter is intended for all members and friends. It is scheduled to appear once each quarter and will report on current events within the District Church.
