Divine service on Pentecost 2007 in Hamburg

(Photo: Verlag)

Zürich/Hamburg. "I would like to wish each and every one of you a blessed feast of Pentecost. May the fullness of God's blessing flow today, and may everyone particularly experience God's love and kindness." It was with these words that Chief Apostle Wilhelm Leber began the Pentecost service 2007 in the Hamburg Congress Centre. His Pentecost message for all New Apostolic congregations around the world was taken from the gospel of John 14: 1: "Let not your heart be troubled; you believe in God, believe also in Me."

Approximately 8,000 congregations around the world participated in the divine service. Via satellite transmission, the sound and picture from the Pentecost service reached more than 70 countries on all continents.

Here we will [show a brief excerpt from the service](#) (in German and English). This is also available in [low version](#). Standing next to the international president of the New Apostolic Church is the English interpreter, Evangelist Ronald Hume.
