Die neue IKT-App

Munich/Zurich. The International Church Convention of the New Apostolic Church now has its very own app. For Android and iOS devices, the app can now be downloaded at the respective app stores. The apps provide a comprehensive overview of the big event, which will take place on the grounds of Munich's Olympia Park from 6-8 June 2014.

Apps are important nowadays, especially for those who own smartphones. And it is also a very practical idea to simply carry all the necessary information with you: a single glance at the screen will suffice. That is also the reason the organisers of the International Church Convention (ICC) of the New Apostolic Church have developed such an app. It is available in three languages (English, French, and German) and contains all the same content as the printed program booklet, the ICC Guide. All changes to the program of events announced after the printing of the ICC Guide are also contained in the app and will even be updated on a daily basis.

The ICC app is available as of right now for free download in Google's PlayStore for Android and in the Apple App Store for iOS.

» Immediately download the ICC app for [Android devices](#) and [iOS devices](#).

» See also our [online magazine](#) for information on the ICC.
