Home > Church > Bulletin board > New Apostolic Church Spain has its own website

Barcelona. The New Apostolic Church in Spain has recently become accessible online by way of its own homepage on the internet. The layout of this website closely resembles that of the New Apostolic Church Switzerland, as the Church in Spain is one among many missionary regions in Southern Europe under the care of the Swiss District Church.

In a letter to the congregations, Erhard Suter, the Apostle responsible for the Church in Spain, expressed the wish that the new website would serve as an information source for current events within the New Apostolic Church Spain.
