Zurich. On his website “ad fontes” Folkmar Schiek has publicly called upon the Work Group “History of the New Apostolic Church” (WG HNAC) to provide source references in the article “Perfecting the Ordinances—Historical Observations on the Ministry of Evangelist in the Catholic Apostolic Church” (OF 8/2007). The History Work Group responded to this with an Announcement of a supplementary article.

At the time, the History Work Group mentioned that an academic article on the Evangelist ministry had been scheduled for release. The latter was partially based on newly available internal sources of the Catholic Apostolic Church in England.

We are now pleased to make this article available. Please read our preface to the article first.
