All congregations of Europe at a glance

Zurich. All congregations of the New Apostolic Church in Europe at a glance - at least their addresses. We are offering this service starting today: the European congregational database is online.

The European address book will be published in six languages:

You can find the [German address book here](#).

We are also offering this service in [English](#),
in [French](#),
in [Italian](#),
in [Spanish](#), and in [Dutch](#).

From Norway to Mallorca, from Portugal to the Ural Mountains - all New Apostolic congregations in Europe that have an address are contained in this address book. Through a link to each congregation's website you will soon be able to access interesting information about each one as well.

This service is also available through the various websites of the European District Churches.
